CERTIFICATES REGISTER

In accordance with the requirements of the standard HRN EN ISO / IEC 17065: 2013 (item 7.8. Register of certified products) IGH Cert keeps records of certified products and certificates of conformity of factory production control in the Register of certificates containing:

a) product identification;
b) standards and other normative documents based on which the certification is carried out;
c) identification of the customer and the manufacturer
d) certificate status (valid, replaced, suspended, withdrawn)

For information on the Register of Certificates, please contact:
